Our school strategies are showing substantial progress toward our targets

After reviewing our Great Results Guarantee agreement, it is clear that we have made progress toward our targeted student outcomes. We will continue to focus on maximizing the benefits of this funding for our students, and adjust our strategies as needed to ensure every student succeeds.

Strategies implemented include:
- A major focus on all three tiers of intervention of **reading** in the early years.
- Purchase of resources to assist in program identification and development
- Underpinning this focus was the identification of the importance of **Oral language** which resulted in the following:
  1. Identification of students who required intervention.
  2. High level of training and professional development for staff
  3. Implementation of specific oral language programs
  4. Assessment profiles to inform refinement of programs for 2015
  5. Dyslexia training for all staff
